TOPOGRAPHIC DATA

Detailed project mapping (2 and 4 foot contour interval data) includes all elements that appear on project maps as well as FEMA floodplain, base flood elevation and soil data. Typical features captured are bridges, canals, culverts, contours and spot elevations, digital terrain model (DTM), lakes, rivers, railroads, structures, street detail and survey control data. Every mapping project does not necessarily capture each of these features. The data available will vary from project to project. Follow these [directions](http://fcd.maricopa.gov/downloads/GIS/Topographic_Data_Request.pdf) (http://fcd.maricopa.gov/downloads/GIS/Topographic_Data_Request.pdf) for purchasing this data.

Product	Cost	Min. Charge
